## FANÁTICOS / Customer Testimonials

"I only have a small handful of brand loyalties. I find that most products, including food products are of acceptable quality and I therefore tend to buy what's on sale. You tortilla chips are an exception. They taste just like really good authentic restaurant chips; they are absolutely fantastic!"

~ Justin L., New Carlisle, IN

"I just found your thin tortilla chips last week & we LOVED them! They are much better than any others we have bought & are as good as most & better than some in the restaurants we have been to.

Thank You!"

"First of all, I want to tell you what a great SLASA you have made. I tried the HOT and was sold on it from the first taste. It had the right texture, flavor and spices to what I would call the PERFECT SALSA. Just thought you should know you made a big different in the brand of SALSA I buy from now on."

"Hi, I just wanted to let you know how grateful I am for your low carb, sugar free Margarita LITE Mix. As someone with Type 1 Diabetes, it's extremely difficult to enjoy Latin drinks without endangering my glucose (sugar) levels."

Just wanted to take time and find you on the Web. My husband and I purchased the On The Border tortilla chips today for the first time at Albertson's. We were looking for a different brand. We wanted something without Frito Lay's name. What a great surprise to finally find a chip that is really different! They taste like the chips served by some of the better Mexican restaurants! Fresh and flavorful!

I am looking forward to also purchasing your other available products! A grateful and satisfied customer.
